

CROWN CONSULTATION FRAMEWORK

Churchill River Diversion Project Final Licence

Manitoba Hydro Requests a Final Licence under *The Water Power Act*. (May 2009)

Phase 1

Manitoba informs First Nations and Aboriginal Communities about the CRD Project Final Licensing process and Crown consultation.

Communities confirm interest in Crown consultation.

Phase 2

Manitoba and each interested community develop a consultation plan for a mutually acceptable consultation process and undertake consultation according to the agreed upon plan.

Phase 3

Manitoba and each participating community review the consultation information and consider how concerns might be addressed.

A Record of Consultation is prepared for each community.

Government Decisions

Manitoba will consider consultation information and accommodation measures as part of licensing decision for the CRD Project.

Manitoba will communicate with each participating community about government decisions and how concerns were addressed.
